

SEASON 2026

THE SMART WORLD OF THE LA STRADA MOTORHOMES

LA STRADA

THE GERMAN PREMIUM MANUFACTURER
OF EXCLUSIVE MOTORHOMES

For over 40 years, we have specialized with passion and dedication in the development and the construction of high-end motorhomes. We do not just build them; every day our devoted staff put their heart and soul into their work to offer you a perfect and individual **LA STRADA** travel experience.

Each layout is manufactured in Germany with high-class craftsmanship. This premium quality can be found in each detail. Traditional expertise!

LONG-LASTING PLEASURE AND RELIABILITY

Our main pretensions are the durability and the reliability of our vehicles. By using sophisticated components of the highest quality, our motorhomes offer long-lasting pleasure and maintain their value. And because we stand behind what we have developed, we offer you up to **5 YEARS** of **WARRANTY** on it.

The experience we have gained over the past 40 years as well as the constant communication with you as the user, make our vehicles unique. We manufacture motorhomes we want to use ourselves: elaborated, functional and very comfortable.

We do not build off-the-shelf models, but conceive the perfect home for your travels. Compile your individual model with one of our experienced trade partners. The technique, the design, the interior layout and an extensive choice of 130 different fabric and leather interiors: the diversity will mesmerize you! **LA STRADA!**

SMART CARAVANING

NEW ELECTRONICS CONCEPT FOR ALL MODEL RANGES

For the season 2026, **LA STRADA** has developed a completely new electronics concept for all its models. From now on, Smart Caravaning is incorporated into all the **AVANTI**, **REGENT** and **NOVA** layouts.

Discover the new digital control panel, a smart solution to easily check the battery charge over hook up power or through an optional solar panel available with up to 300 W. The control panel indicates the precise state of charge of the engine – as well as of the lithium leisure battery.

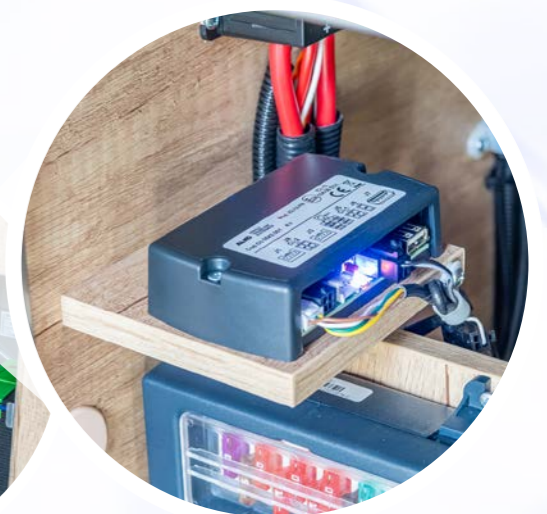

Standard and optional equipment, such as the heating system, the refrigerator, the water pump, the exterior light, the air conditioning and more, can be handled by the control panel but also via an application.

In its standard version, this can be done in the vicinity around the van. In its Pro version and together with an optional Internet antenna, the remote command is possible from anywhere in the world. This version also enables the GPS localisation of your **LA STRADA** van.

As in true **LA STRADA** style, the components are of the highest quality and in perfect accord with each other.

LA STRADA – the guarantor for innovation, comfort and functionality! We strive for perfection to let you discover the world!
